

Interscope<sup>®</sup>

A Research and Web Development Company

# Mission statement:

We help your dreams become a reality with custom web sites at affordable prices and a dedicated support team.

Let's Go Global.

# How it works

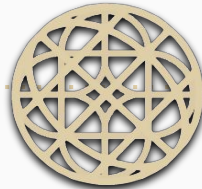

## Step 1

Functionality &  
Budget discussion

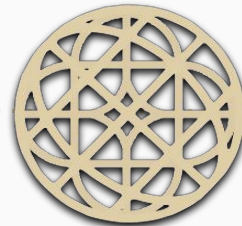

## Step 2

Set up a meeting  
to go over the  
design  
conceptualization.

## Step 3

Share the prototype  
and map any changes.

## Step 4

Develop the web-site  
and test the complete  
work-flow.

## Step 5

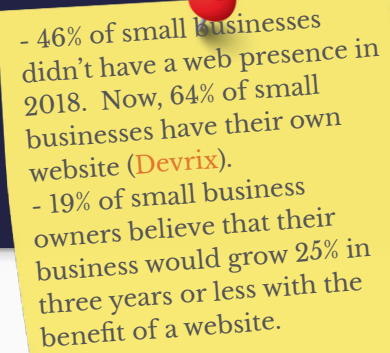

Extend your websites  
reach by using our SEO  
and Mailer services!

# Our Services

# Our Services

- 46% of small businesses didn't have a web presence in 2018. Now, 64% of small businesses have their own website (Devrix).  
- 19% of small business owners believe that their business would grow 25% in three years or less with the benefit of a website.

## 1. Web Hosting & Maintenance -

- ICPL offers premium Web site hosting services that are secure, reliable and scalable.
- We integrate contemporary Internet technologies with your business strategies & operations, mission-critical services and provide an unbeatable client support.
- We offer dedicated and shared Website hosting services and applications.

# Our Services

## 2. Web Designing & Development -

- Our company offers Website Designing and Development solutions that will impact your audience with stunning aesthetics and address your business needs.
- At ICPL we know that comprehending the rationale behind a company's web presence is essential before the website design can be conceptualized. A complete knowledge of your business objectives helps us identify your requirements and find the right solutions for your company's website.
- Our web designers initially prepare sample layouts including the website structures and work-flows to give you a fair idea of the look, feel and functionality of the website. Only once it matches your creative vision and business goals, do we begin developing your website.

# Our Services

## **3. Search Engine Optimization -**

Search Engine Optimization (SEO) is a subset of web promotion methods aimed at improving the ranking of a website in search engine listings to bring more visitors to the website once a relevant search is undertaken.

## **4. Bulk Mailing Services -**

Bulk emailing is the act of sending one email campaign to a large group at once. Marketing messages, newsletters, updates, coupons, and invitations typically comprise bulk emails. At ICPL we help you get your mailers from design to production.

**At 1250° C**  
the objective is not to burn COAL  
but to make COKE.

**Welcome to Foundry Fuel Products Limited**

Foundry Fuel Products Limited (FFPL) is engaged in the manufacturing of Low Ash Metallurgical Coke and is also engaged in trading of Coal and sand preparation for foundries. The company manufactures Low Ash Metallurgical Coke at its plant in Dhanbad district of Jharkhand with an installed capacity of 45,000 MTPA with a coal washery. It also trades in middlings and rejects, hard coke dust and slurry residue. The coke finds use in steel, foundries and chemical industries. Manufacturing facilities are located in the Dhanbad district of Jharkhand.
